

REGISTRER FORM OF PROMOTION PROJECT

Name: Vu Duc Phu	Nominated Position: Manager	Section/Group: FEG	Theme: Improving The Quality Of New Product Transfer By System Standardization.
------------------	-----------------------------	--------------------	---

I. CURRENT ISSUES:

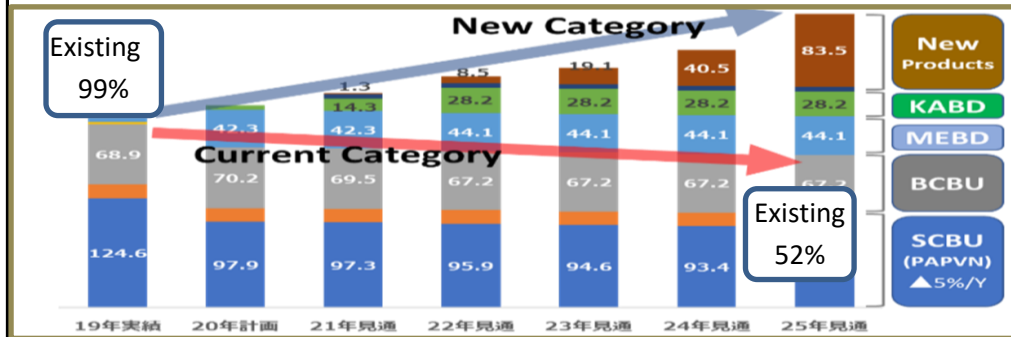

Background: + PSNV salary increase average 7% yearly.

+ Current models sale down.

In case Factory has single category: + Difficult to take new category.

+ Sale down will easy to closed the Factory.

✗ PSNV has multi categories so we can receive more new products transfer to keep the sales increase and profit.

Problem issues during transfer new category:

■ Issue 1: Development system of transfer model is difference with current BU

+ Approval steps difference.

+ Difficult to feedback to improve design problem (transfer after AQ2)

■ Issue 2: Transfer document use Chinese so difficult to clear understanding.

+ WI is not update latest condition, difference with actual.

+ Some sub unit or PCB making by supplier have no WI.

■ Issue 3: PDM System differences <AP-PDM>.

+ Parts list/TNA format difference with other BU.

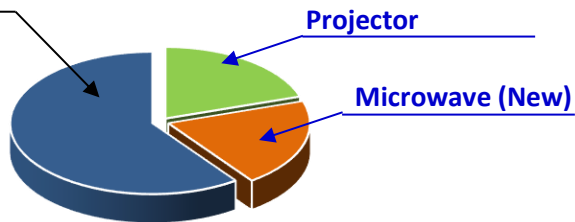

■ Issue 4: Difficult to control quality of transfer model.

+ Have no experience with new product transfer.

Current product is Digital/ New product (Welding/Optical)

Current categories:

- PBX
- DP
- SCN/Bfax/PLC/AIO
- DECT
- PAPVN (WM/Refrigerator)
- HD COM
